1. The Statements received from the Dfs/ Comrs of Dists showing the amount of Vehicle taxes collected by the several town and minor municipalities in the State during the three years ended with 30th June 1935 are tabulated and placed below. While particulars are furnished in the case of several minor municipalities, such information has not been furnished in respect of several town municipalities and the Dfs/ Comrs have not also clearly stated that in the case of those town municipalities in respect of which no information has been furnished, no vehicle taxes were being collected.

2. It is also a point for order whether the figures furnished by these municipalities are not to be verified by audit.

3. The figures furnished in respect of Hosadurga and Malavalli minor municipalities seem to be not correct.

4. What percentage has to be deducted as collection charges out of the amount payable to each municipality has also to be decided.

Submitted for Orders.

5. Accordg to Rule 9 of the ROTOR TAXES Regulation, the town and minor municipalities have also to be compensated for loss of Vehicle taxes on motor vehicles, on the basis of the

average earnings of the previous three years. The DCs of Districts were requested to send Verified Statements of revenue derived during three years from taxes on motor vehicles in the municipalities in their Districts. The Statements have been received. A tabulated statement showing the three years earnings, on the scale of the three years is submitted. The total number of municipalities to which compensation is to be paid is 49 and the amount so payable per annum is Rs 5265.

6. It is not clear if the list of municipalities as sent by DCs are complete. They will be requested to Verify and intimate.

7. The figures of revenue furnished are not Verified. It will however be seen that the amount involved is very small in the case of most

Municipalities area is in some cases as low as Rs 10 and 5 per annum. A large number are below a hundred ~~and~~ while the largest amount payable is Rs 600 & Rs 700 in the case of two municipalities only — viz Tumkur & Hassan In view of the small amounts involved, fresh verification does not seem necessary in the case of most municipalities. Perhaps, it will be enough if the two town municipalities' accounts are verified.

8 The amount payable for the half year ended with 30th June 1936, is the average minus the amount collected for the 1st half of 1935-36 by the RTO as has already been decided in other similar cases. This amount is shown in the SR.

9 It has been suggested that, pending a decision, 10% of the amount payable as compensation may be shown by [illegible] as collection charges

13. Out of the ~~39~~ 49 Municipalities entitled for compensation in 23 cases the amount payable annually is above rupees fifty. As the amount once fixed as payable will be in force for 3 years continuously and perhaps as the amount payable later on also will be determined with reference to the payments made previously, it seems necessary to get the figures relating to these 23 cases atleast if not all checked locally in audit.

The compensation for 1935-36, 1936-37 and 1937-38 may be provisionally fixed on the basis of the figures furnished by the Local Bodies, in the manner indicated in the note of Mr. Rangachar, with the modification that 10% may be deducted towards collection charges in all cases. SIR,

Subject :—

With reference to your letter No.Camp P 18-25/Legis. dated the 3/4th June 1936, calling for statistics relating to the vehicle tax collected in the several Municipalities etc., in this District, I have the honour to state that as the form in which the particulars are required contains columns both horizontally and vertically, it is inconvenient to send up a consolidated statement as required. However, 5 seperate consolidated statements, one for each kind of motor vehicle mentioned in Col. No.1 of the I statement are herewith sent.

As regards statement No. II, a consolidated statement is appended. In no Municipality of this District, separate staff is entertained for the collection of vehicle tax. The staff entrusted with the collection of mohatarfa will usually be entrusted with the collection of vehicle tax also. The particulars of all the 12 out of the 13 Municipalities are embodied in the Statement. The President, Anekal Municipality, in spite of instructions had submitted an incorrect statement. He has been asked to submit a correct one and on receipt of its, the same will be forwarded to you.

As regards the particulars of toll revenue realised by the Bangalore District Board, the President, was requested on 7-7-1936 to furnish some additional information and a sketch showing the location of the several Toll gates. No reply has

has been received from him. A D.O. reminder has been issued to him and after getting the particulars called for, the same will be forwarded to you.

The original statements received from the several Municipal Councils are also enclosed for reference.

I have the honour to be,
S i r,
Your most obedient Servant,

DEPUTY COMMISSIONER,
BANGALORE DISTRICT.

With reference to your letter No.Camp.18-25 Legis dated 3rd/4th instant, calling for statements (1) showing the toll-income realised by the District Board from toll-gates) and (2) vehicle taxes collected for the years 1932-33, 1933-34, 1934-35 and for the half year 1935-36 in each Municipality, I have the honor to forward herewith a statement giving particulars of income from the District Fund toll-gates. A sketch map of the District showing the position of the several District Board toll-gates is enclosed as desired. As regards the statement of vehic taxes collected in each Municipality particulars are due from th Presidents of 6 Municipalities. These officers have been remind and a consolidated statement will be submitted immediately after the receipt of particulars from them. The recent order of Gover ment granting some concessions to bullock carts carrying agri-cultural produce has created an impression in the minds of bidde at the sales of interior toll-gates that no toll may be levied o any kind of bullock cart except those carrying timber, bamboos, stone and ore. Consequently the bids at the first sale when all the toll-gates were sold at the District Head Quarters realised practically nothing except a few frontier toll-gates. Even for these there were poor bids. The traffic in timber, stone and ore is practically nothing in this District. In the resales which are now being conducted at Taluk Head Quarters the bids so far

are

are extremely low. It is a point for consideration whether the District Boards should be given the contemplated quota on the realisations of the past three years.
